SUMMARY

I am a dedicated Bachelor of Computer Applications (BCA) student with a strong foundation in backend and frontend technologies. Proficient in Python, Flask, and various databases, I'm passionate about building scalable applications. My projects demonstrate my ability to create functional and innovative solutions, making me eager to contribute to dynamic teams and further refine my skills

EDUCATION

Bachelor of Computer Applications (BCA)

South Indian Children's Education Society, Ambernath – YCMOU

📅 08/2022 – 07/2025 📍 Ambernath

HSC

South Indian Children's Education Society, Ambernath – Maharashtra State Board

📅 06/2020 – 05/2022 📍 Ambernath

SSC

Heaven Bell Convent High School, Badlapur – Maharashtra State Board

📅 04/2018 – 03/2020 📍 Badlapur

SKILLS

Gmail Python Flask HTML

CSS REST JWT Socket.IO

Bootstrap Postman Git

GitHub PostgreSQL SQLite

SQLAlchemy JavaScript ATS

Modular AWS MS-CIT

PROJECTS

Chatroom Project

A chatroom project to facilitate real-time communication

- Developed a real-time chat application using Flask, SocketIO, and Python
- Implemented messaging, file sharing
- Built responsive frontend using HTML, CSS, Bootstrap, and JavaScript

Student Manager

📍 Github

A system to manage student records efficiently

- Developed a CRUD student management system using Flask and SQLAlchemy
- Integrated PostgreSQL/SQLite database for student record management
- Implemented form handling, database operations, and responsive UI

AI ATS Resume Analyzer

📍 Github

A project focusing on AI-driven resume analysis

- Developed a Flask AI ATS resume analyzer for resume parsing and job matching
- Built REST APIs with JWT authentication and PostgreSQL integration
- Organized the project into modular auth and analysis components for scalability
